

COMMERCIAL REVERSE OSMOSIS • HIGH-CAPACITY F&B

Majestic RO

High-flow commercial reverse osmosis for high-volume food & beverage — up to 185 litres of crystal-clear purified water per hour, with multi-stage filtration down to 0.1 µm, in a remarkably compact footprint.

HIGH CAPACITY

IMP 185

WHY SPECIFY IT

High flow, crystal clear.

A high-capacity RO system engineered for busy food & beverage sites — a steady, reliable supply of purified water filtered to commercial standards, with built-in alarms and flood protection.

High flow rate

Delivers up to 185 litres of purified water per hour — a steady, reliable supply for high-volume F&B applications.

Multi-stage filtration to 0.1 µm

Effectively removes impurities for clean, crystal-clear water that meets commercial standards.

Alarms & flood protection

Filter-change alerts by time and usage, plus an integrated flood alarm and flooding block to guard against water damage.

µm multi-stage

Crystal-clear, protected

Multi-stage filtration removes impurities down to 0.1 µm for water that meets commercial standards. Automated filter-change alarms track time and usage to minimise downtime, while an integrated flood alarm and flooding block guard against water damage.

SPECIFICATIONS

Technical detail.

Model	IMP 185	Pump	Super · internal
Order code	FLO IMPFLT185	Filtration	Multi-stage · 0.1 µm
Datasheet ref	SWC-IMP185-25-R0	Filter-change alarms	Time + usage
Type	Reverse osmosis	Flood protection	Alarm + block
Purified water flow	185 L/h	Dimensions (WxDxH)	51 × 40 × 13.3 cm
RO membrane	2 × 500 GPD	Application	Commercial F&B

Filtration	Alarms	Flood
0.1 µm	Filter change	Protection
 Multi-stage filtration to 0.1 µm for crystal-clear, commercial-standard water.	 Automated alerts by time and water usage minimise downtime.	 Integrated flood alarm and flooding block guard against water damage.

HOW IT WORKS

From mains to pure water.

01	02	03	04	05
Potable mains	Multi-stage pre-filter	2×500 GPD RO	0.1 µm polish	Purified F&B output

SCOPE OF SUPPLY

What we provide.

- ✓ Majestic RO system (IMP 185 · FLO IMPFLT185)
- ✓ 2 × 500 GPD reverse osmosis membranes
- ✓ Multi-stage filtration to 0.1 µm
- ✓ Super internal pump
- ✓ Filter-change alarms · flood alarm & flooding block
- ✓ Optional Comprehensive Maintenance plan

Where it fits best

Built for high-volume food & beverage sites — commercial kitchens, cafés and beverage equipment that demand a steady supply of crystal-clear water from a compact, space-saving footprint.
